

Design and Manufacturing Week

Do you design or make things? Inspiring the Future is running a new national Design and Manufacturing Week in 2014 to help young people understand the range of jobs and careers available.

Whether you design and make: airplanes, bicycles, boats, books, cars, ceramics, clocks, clothes, furniture, glassware, high-tech engineering, jewellery, mobile apps, shoes, textiles, websites or whatever requires good design and craftsmanship young people in school and colleges want to meet you to hear about your job.

**Do you design or make things?
We need you!**

Get involved in “Making Britain Great”

Design and Manufacturing Week is looking for employees at all levels - from Apprentices and graduate recruits to CEOs – from organisations that design and/or makes things, whether major employers or enterprising SMEs.

Through free employee volunteering programme **Inspiring the Future** we are running a national **Design and Manufacturing Week** to help young people in schools and colleges learn about the career possibilities in this fast moving sector.

It’s a quick, fun and effective way of telling young people, parents and teachers about your sector to ensure that young people know which skills and qualifications are needed to enter as a school leaver, apprentice or graduate. You talk to students in assemblies, classroom talks and careers fairs.

How can I take part?

To join the mailing list and/or get involved email us:
